This coming weekend sees one of the biggest DX contests of the year – CQWW CW. Even if you're not a contester, there's usually something "juicy" to work on the bands. Remember: CQWW creates its own propagation!
If participating let **ADXO** know. Alternatively, keep an eye on that list nearer the time to see which DX stations will be on the bands before, after and during the contest.
Meanwhile, here's the **rules**.

GS5DXW Celebrating 20 years of DX-World.net

Just a quick note to say that starting on January 1, 2027 and used throughout the whole year, **GS5DXW** is the callsign to be used by Col MM0NDX celebrating 20 years of the globally read and well known DX-World.net website of which he is owner / publisher.
To celebrate this milestone, there may be occasional activities planned in 2027 but nothing is decided yet.

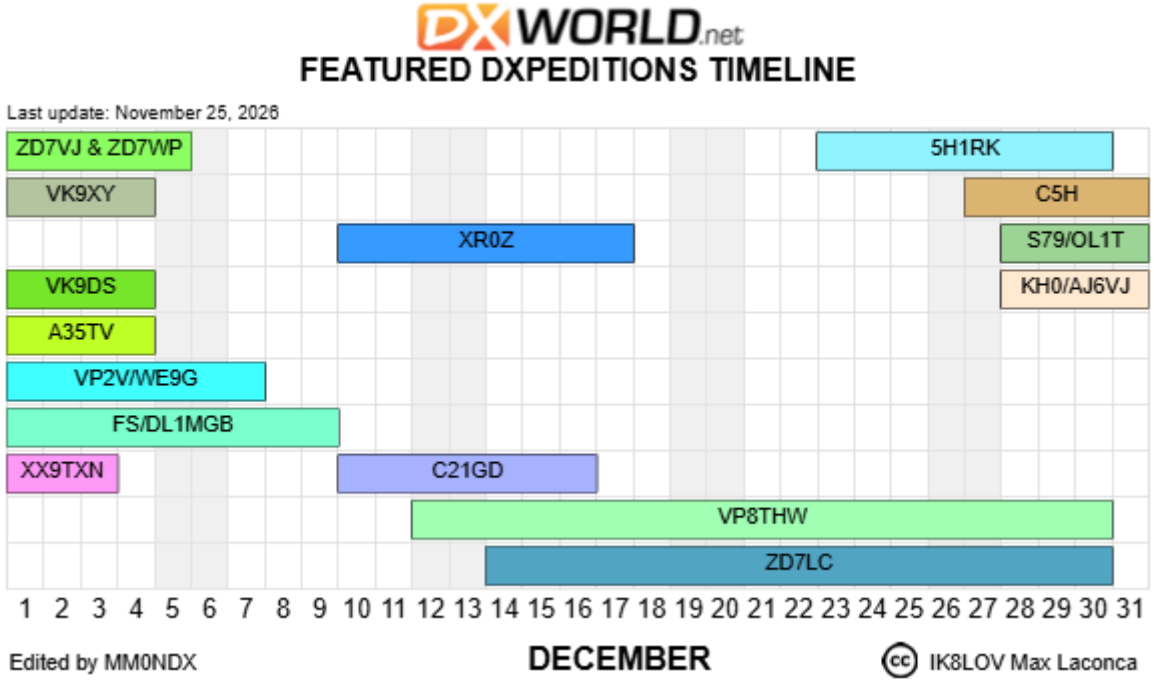

3X4U Guinea Dxpedition -now QRT

And just like that, our adventure in Guinea has come to an end! We finished with an incredible nearly 120,000 QSOs in the log!
Our very last QSO was with Werner, ON7WM, who also provided invaluable local support throughout the expedition. A fitting final contact!
A huge THANK YOU to all radio amateurs worldwide, our partners, and Auberge du Lac de Koba for helping make this DXpedition such a great success.
It has been an unforgettable adventure. We couldn't have done it without you!
73 and see you on the bands!
The 3X4U Rockall DX Group.

6W/IV3FSG Senegal -by Elvira
I just turned off the radio in Senegal: alongside the great satisfaction of putting so many QSOs in the log, I'm also bringing home a meaningful encounter from this trip. While there, I got to know the organization 'I Bambini di Ornella', a group that gets talibé children — the ones you see walking around barefoot with a tin can in hand — off the streets, giving them a safe place to live, eat, and study. If you'd like to support their daily commitment, you can do so here: https://www.ibambinidiornella.org/fai-una-donazione/
— Thank you from the bottom of my heart to anyone who wants to lend a hand to these kids. Warm hugs to all and 73!

SA-018 Chiloe Heli, CE7/DD0VR is QRV until November 29.

SA-101 Alexander Selkirik Isl DX-World has received an update regarding this IOTA DXpedition. The activity is still going ahead, but unfortunately, it looks like Moisés, CE3VTZ and Felip, XQ7IR will face a delay of around 10–12 days due to unexpected maintenance work on the vessel that will take them to Alexander Selkirk island. The shipping company informed them that the departure is now scheduled for the first week of December. So, everything remains on track, with the expedition still going ahead as planned – just with a slight delay.

'New arrival date on Alexander Selkirk Island is currently scheduled for November 24, 2026, and we hope to be ON AIR on November 25 or 26, depending on weather conditions present on the island and the time required to set up stations.'

Attempting to activate NA-212 (YN) -by Ren PY8WW

I would also like to clarify the main objective of this project. My actual goal is to organize a 15-day expedition to Nicaragua to activate three rare IOTA groups: NA-212, NA-209, and NA-228, dedicating approximately five days to each island group. This would be a significant expedition for the IOTA community, giving chasers around the world an opportunity to work these rare references.

All the logistics are already organized, including transportation, accommodation, equipment, and operational planning. I am fully prepared to make this expedition happen. The only obstacle preventing me from moving forward is obtaining the appropriate Nicaraguan amateur radio callsign and authorization. Any assistance or guidance you can provide regarding the licensing process would be extremely valuable.

Troll Station 3Y6BUA by Runar LA6BUA

I will be travelling to the Troll Research Station in Antarctica, and will stay there November 2026 to December 2027.

During this time I will hopefully operate SSB and digital modes from early on, and eventually (hopefully) CW when proficient enough. I will either be operating as **3Y6BUA** or using a special callsign. The bulk of the operating will most likely not be before March to November 2027.

Planned gear for the period is a Yaesu FTDX-10 and Icom 7300Mk2, an Acom 1010 linear amplifier for up to 1000W TX power. With this setup I hope to be loud for many. I am not yet sure what the antenna setup will be, but most likely wire dipoles for 10m, 20m, 40m and maybe 80m. I hope that I will get the chance to make a beam.

KC4/KL5SE and KC4USV

An update from Andrew **KC4/KL5SE** as follows: "*I plan to head to Windless Bight on Thursday and should be QRV by Saturday if all goes as planned*."
Andrew KL5SE is currently travelling South for a new scientific campaign in Antarctica! Just like last year, he will be visiting three field camps, very rare spots for ham radio.
After a stopover at the U.S. McMurdo Station, he will head to Windless Bight, and will also visit Mt. Newall and Bull Pass. As time allows, he will also operate the ham shack in McMurdo as **KC4USV.**
He will be active (using the callsign **KC4/KL5SE**) from each of the three camps using the following setup: FT-710 transceiver and either a 20m or 80m EFHW antenna.

HF0PAS South Shetland Islands

Rafal, SQ4O informs that all going well, he will try to be active as HF0PAS from the Henryk Arctowski Polish Antarctic Station, King George Island, South Shetland Islands after May. He will remain there until February 2027. News updates will posted on the HF0PAS QRZ page.

CQ80BH Azores by Martti OH2BH
OH2BH 80 YEARS, BOTA – BIRTHDAY ON THE AIR.
CQ80BH BOTA in the Azores Islands, in the middle of the Atlantic, IOTA EU-003
DXers never slow down, even on their 80th birthday. Instead, they head out to their DX dream lands, even to an outpost in the middle of the Atlantic. Martti, OH2BH (also AH3D, EA8BH, CT3BH, CU2KG, BS7H, BV9A, P51BH, VR2BH, XX9TZ, BY1DX, Z68BH) is no different.
A special event callsign, CQ80BH, will be activated mostly on SSB from November 19 through November 25 by Martti and friends, exchanging birthday and season greetings.
The same approach has been used for past birthdays: the 50th on Nauru Island (C21BH), the 60th in Montenegro (4O60BH), the 70th in Dominica (J70BH), and now the 80th in the Azores Islands (CQ80BH).
Not only can you exchange greetings with CQ80BH, but you can also request a lottery (QBH) number, which will enter you in the jubilee lottery – or a lucky draw as it was often called in Asian. Just stop by and ask for a QBH number.
The lucky winners will receive three (3) QST annual subscriptions, three (3) Daily DX subscriptions, and full-color QBH certificates.
The QBH number you will receive from CQ80BH will participate the actual lottery on December, 20th, of which results will be announced in Daily DX and DX-World promply. There will be a surprise prize as well. See here for more details.
